Logie, General

Military District No. 2

October 29th, 1917

General Logie,

Headquarters, M.D. No.2,

Toronto.

Dear General Logie:

I regret to learn that there is a possibility that Lt.-Colonel LePan may be retained at Niagara for the whole winter. We hoped when he was appointed to this position he would be kept there only for a few months. If he is not permitted to return to Toronto at the opening of the winter we are liable to find ourselves in a position of great difficulty. Colonel LePan understands the working of our heating plant in a way that no one else does, and during the past three winters we have been able to call upon him in case of need without interfering with his military duties in Toronto. As you are aware it is essential for the conduct of the University and incidentall also for those who are under your command in various university buildings that the heating plant should be kept in the best running order. We ask you to be good enough to help us in having such a transfer made as will enable us to continue to use a portion of Colonel LePan's time during the coming winter.

Yours sincerely,

President.
